The Pennsylvania General Assembly passed a budget bill in December 2023 that:

- Provides a one-time payment to dentists enrolled in the Medical Assistance (MA) program. The amount will be determined by dividing the number of claims from a MA dentist's managed care organization utilization from calendar year 2022 of the codes included in the chart below, by the total claims from all MA dentists' managed care organization utilization from calendar year 2022 of the same codes, and multiplying this quotient by \$12 million in funding from the legislature.
- Appropriates another \$12 million to be used by the Department of Human Services (DHS) to increase the calendar year capitation rates for the same codes included in the chart below, beginning January 1, 2025.
- DHS will apply for matching funds from the federal government in the amount of \$24 million, which will also be used for the purposed outlined above.
